Kidnap evidence

Aug 28, 2011 post

11.1.07683.99

11.1.1171.99 dispute

Vic, as you can imagine I am extremely dis-pleased with everything that has occurred to me in the Cobb County and MPD system. No one (and I will include your services), has adequately represented my rights. No one has returned my calls or resolved my issues at all without my persistence of MONTHS and MONTHS of everything.

It is time for immediate action.

1. File lawsuit against Bashama and Wendell immediately. Start with Credit Card Fraud, ID theft, fraud, and selected list of heaviest charges.
2. For Wendell, charge him with Grand Theft Larceny as he was not authorized to enter my home. In reality, neither was Bashama because she was not on the lease. No evidence exists that she was ever a resident including she never paid me a dime (for anything). Charge her with Grand Theft Larceny to the letter of the law.
3. File felony charges against both MPD and Cobb County for an assortment of charges of mutual choice. Start with ' Malicious and fraudulent filing of my Police Report 1-11-0002506. TWICE, the second version Exhibit #2 was even worse saying I was the suspect and stole my own \$5500 worth of original goods.

Next, Releasing confidential information (emails) to Bashama that were expressively under legal privilege per my signature line (I was my own representative lawyer at the time, so this will hold up in court).

Collusion with Bashama as her words and testimony were added fraudulently by MPD officers. and NO-one called me at all.

Huge list of felony and criminal charges that US Attorney's office and probably GBI will have a field day with. AND even FBI may get involved since Bashama is suspected of interstate criminal activity along with Wendell.

Note: Bashama appears to still be in town from secondary evidence. I have not physically seen her since Feb 22 court hearing. No chance encounters have occurred.

My damages will exceed \$100K and I can easily claim interference with business activities worth multi-millions.

DO I HAVE YOUR ATTENTION NOW?? Your career as lawyer, judge, DA, or judicial leader is probably already in jeopardy as a result of your inadequate actions. Do you agree...

Keith.
